

What is Votelogic?

Votelogic is a cost effective, scalable voting solution for any event, AGM, workshop or training day.

The powerful Votelogic system integrates with PowerPoint to facilitate the easy creation of survey, quiz or feedback questions with unlimited response options. Using lightweight radio-frequency keypads participants can make their voting selection with results displayed instantly on screen in a variety of graphical formats.

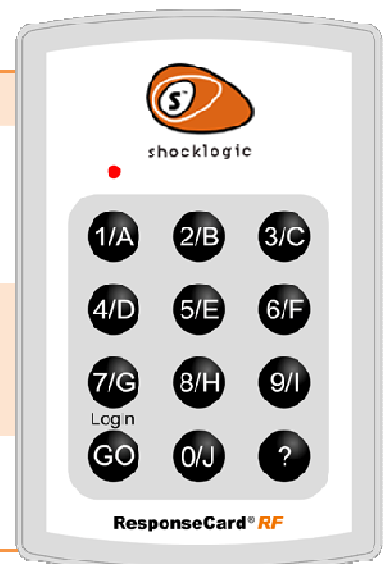

Whether you require personalised individual delegate feedback or an anonymous voting poll Votelogic has the flexibility to meet any voting requirements. The system can also be used to support pre planned and impromptu questions and voting keypads can be branded to include event or sponsor logos

Why Votelogic?

- ✓ Create an interactive event environment to engage your participants
- ✓ Gather delegate feedback at the touch of a button
- ✓ Powerful graphical results displayed instantly
- ✓ Track individual delegate responses or create anonymous voting environment
- ✓ Scalable solution from five to thousands of voting units
- ✓ No onsite hardware or networking requirements
- ✓ Onsite operators with specialist event, AV and voting experience
